Student Executive Internship Program Underway At MPUSD

An executive internship program for juniors and seniors has been established by the Monterey Peninsula Unified School District. Robert Hanson, the coordinator of the program, announced that the Districts program is one of only 27 such programs across the Country.

Hanson said selected district students will take a semester's sabbatical from all of their regular studies and serve as special assistants to executives in government, private nonprofit agencies, civic organizations, education, cultural institutions and the private sector. Hanson added that he is interviewing the senior officers of such organizations on the Peninsula to recruit their participation.

The success of the program is based on a close one-to-one relationship between the executive sponsor and the student intern.

Students interns will work directly beside their sponsor four days a week during regular business hours. On Fridays, all of the interns will meet as group for seminars on urban policy development and administration, in which they will discuss readings, meet with officials, make site visitations to programs in operation, and often make their own presentations.

Hanson said that the program is a marriage of the theoretical and the practical wherein the program combines the best elements of classroom analysis with actual experience in the world

of executives and organizations. Hanson pointed out that students accepted in the program are to learn rather than to be productive employees. However he added, the student will receive a full semester of academic credit for their participation.

Officer Assigned By MPUSD

The announcement was made today of the appointment of Peggy Johnsen to the newly created position of Director of Community Resource and Information. In making this announcement Dr. Harrison said that the job included the position of the former public information officer. He indicated that the position was being combined with the position of the community resource center director in an effort to coordinate district-wide, the efforts of the schools to inform the public and to embrace them in the activities of the schools.

Dr. Harrison indicated that he was very pleased to have Mr. Johnsen in the position because of her wide involvement in Peninsula Volunteer Organizations. Mrs. Johnsen is a graduate of the University of Wisconsin and has previously been employed by Stanford University Hospital and the Permanente Medical Group. She has been living on the Peninsula since 1957 and has three children in the Monterey schools.

Warrant Officers Garden Gateway Lot

Gateway Center for the Retarded has recently been the scene of "weekend duty" for the Warrant Officer Association, Monterey Bay Chapter. Some 25 members of this Fort Ord-based organization have volunteered their weekends to clean-up and garden Gateway's "backyard", approximately 2 acres of land that is owned by the center, and is adjacent to its present location at 1664 Hilby Avenue in Seaside. The officers plan to continue this program to keep the lot

cleared of rubble and annual growth that creates a fire hazard.

Warrant Officer Kenneth E. Evans, the association's president, says that "our group is giving the center the type of assistance that it would not normally receive from public or private charity-oriented organizations. We want to help Gateway in any way we can."

In addition to their physical efforts, the association has donated \$400.00 to the general

operation of the center. Also, the officer's families are involved, helping with the gardening and currently planning other fund-raising events to benefit Gateway.

Former warrant officers or anyone interested in helping with the project should write to Warrant Officers Association, P.O. Box 402, Fort Ord. The center is one of the 14 local, charitable agencies that benefit from the annual Monterey Peninsula United Fund campaign.

Retired Men's Social Club Still Cares About Giving

SEASIDE, CA., Nov 1-The Retired Men's Social Club is now endeavoring to out-do last year's Thanksgiving commitment as it takes on a very charitable task to sponsor a community-wide dance benefit for handicapped families on the Peninsula, according to the club's spokesman, Clarence Winn.

Winn said the organization wants "to live up to the traditional meaning of giving and to add joy into the hearts of those in need", by feeding over 225 Thanksgiving Dinners with all the trimmings to needy families on the Peninsula this year.

The club has complete plans for its Fourth Annual Veteran's Day Dance benefit that will be held on Nov 9th at Monterey's Fairground Exhibition Hall from 8 p.m. to 1 a.m., with the return by popular demand of big sounds from the "Protege's". The feature attraction is "Good Time Charlies", who is widely known for his imitation of soul singer Lou Rawles and Brook Benton, singing the popular tune "Rainy Night in Georgia". Tickets can be purchased from Steve's Bar-B-Cue at 1667 Del Monte,

Gateway Liquor at 1780G Fremont, and Terrace Liquor on 1949 Fremont.

Special guest appearances by Miss Castroville World Artichoke Queen 1974-75 Miss Pat Ross.

Other information concerning this event will be distributed by fliers, personal contacts, and through local

organizations on the Peninsula.

Last year the club sponsored a similar benefit and fed Thanksgiving Dinner to over 150 senior citizens. Other charitable endeavors include: a \$1100 donation to the Seaside Band and Letter Girls of Seaside High.

United Fund Collects \$66,000

Monterey Peninsula United Fund Officials today announced that over \$66,000 has been raised during the first two weeks of the 1974-75 fund drive. \$11,000 of this amount represents the net receipts from the highly successful 1974 Pebble Beach Concours d'Elegance. After the first two weeks of last year's campaign, some \$52,000 had been raised, considerably less than the new amount.

United Fund Drive Chairman Jim Glaser expressed optimism because of the many contributions to date, and said, "with this fast start, I am confident that we will

reach our goal of \$260,000. All of our committee chairmen are working very hard. Also, this year our Professional Division has been excellently organized into sub-divisions by Chairman Ralph Drummond, so we expect to receive much more financial support in this area than we have previously."

The theme for the campaign is "People Helping People the United Way." Included in the 14 member agencies who benefit from the drive are the Salvation Army, Traveler's Aid, Visiting Nurse Association, and Volunteers in Action.

Pianist Returns To Monterey Symphony

The Peninsula Chapter of the Monterey Symphony Guild is pleased to announce the return performance Mr. Anthony di Bonaventura, pianist.

A highly accomplished pianist, Mr. di Bonaventura will present a special concert on Sunday, November 10, at 3:00 P.M. at Sunset Center Auditorium in Carmel.

Born in Italy, Anthony di Bonaventura received his musical education in the U.S. at age thirteen, he appeared as soloist with the New York

Philharmonic Orchestra, followed by Performances with orchestras in ten countries. He has appeared in Europe, Scandinavia, Australia and New Zealand.

Mr. di Bonaventura was acclaimed for his performance with the Monterey County Symphony's 1971-72 season.

Mr. di Bonaventura will play Beethoven's Sonata in D major, Nocturne in F sharp major, op. 15, No. 2; Waltz in A Flat Major op. 34, No. 4 in F Minor, op. 52 by Chopin; Granodas' Danzas Espanolas,

Vol. 11 and Hungarian Rhapsody No. 10 by Liszt.

Tickets are available at the Symphony office Sunset Center in Carmel; Abinante's Music Store; Carmel Music; Lily Walker Records and Music and Gadsby's Music Store.

All seats are reserved: orchestra \$5.00 and balcony \$2.50. Mr. di Bonaventura was the original man to chose the Avery Tompkins Concert Grand (Steinway) Piano used by our Monterey County Symphony.

Filipino-American Dance Troupe To Perform

Monterey, Ca. - "Silayan," the nationally-known Philippine-American dance company from Los Angeles, will perform at the Monterey County Fairgrounds exhibition hall on Saturday, November 30. Brought to Monterey by the Filipino-American Community Club of the Monterey Peninsula, the group will present two 2-hour shows, at 5:00 and 8:00 p.m.

The aim of the troupe is to present a glimpse of Filipino culture through its folk dances, songs and authentic native dress. Silayan made its first major performance in January 1972, and since that time has staged highly-acclaimed performances in numerous prestigious hotels, the Los Angeles Music Center, and on television.

For its Monterey engagement, Silayan will perform a collection of authentic Filipino folk dances in their originality, including: Carinosa, a flirtation dance in which dancers play a hide-and-seek game; Itik-Itik, an

imitation of the duck; Tinikling, the national dance of the Philippines which depicts the movement of a long-necked bird; and Pandango sa Ilaw, a dramatic interplay of tiny lights on the heads and hands of the performers.

The Filipino-American Community is asking a \$5.00 donation at the door prior to each performance to defray

expenses incurred while sponsoring the dance troupe, and for a Filipino Cultural Center being built by the club in Marina.

For further information, call Mr. Amando Julian, 394-5222; Mr. Lucas Faller, 394-3316; Mr. Joseph Mateo, 394-0575; Mrs. Marcia Sabado, 394-3316; Mrs. Josie Rogacion, 384-7094.

Crosby Pro-Am At Pebble Beach

Booster Badges and tickets are now on sale for the Bing Crosby National Pro-Amateur Golf Championship, set for January 23 - 26 at Pebble Beach.

The event, now in its 34th year, attracts the top touring pro golfers who team with invited amateurs from the sport, business and entertainment worlds in a 72 hole pro-amateur championship. The four-day tournament

will have \$215,000 prize money for the pros, with an additional \$10,000 going to the satellite tournament.

For the 2nd year sponsor badges will be available. They entitle the holder to a reserved bleacher seat on the 18th green at Pebble Beach in addition to admission to all three courses for the four days.

Also available are daily tickets.

Spotlight Shines On Mary Enos

This week King's spotlight shines on Mary Enos. Fourteen year-old Mary is a ninth grader at Martin Luther King Junior High School. She is the daughter of Mr. and Mrs. Antone Enos and resides at 1880 Lincoln Street in Seaside along with her two sisters and three brothers. Mary was born in Washington and later moved to Seaside where she has lived for the past eleven years. She is a former student of Ord Terrace Elementary School.

Mary is interested in her community and has served as a member of the Seaside Youth Commission for eighteen months. She has enjoyed the individualized instructions offered in her classes. Her favorite subject

Mary Enos

is World History. Her ambition is to complete college and then work in some area of Special Education. Her hobbies are collecting stamps and working with children.

The Seaside Lions Club sponsored a "Day for the Blind" at Toro Park recently. Shown above is Bill Brown, preparing food for the blind. The blind came from throughout the peninsula for their day at the park with a picnic fit for a king. This is an annual affair sponsored by the Seaside Lions and over thirty blind people participated in the program. PHOTO BY TOM NASH

Rev. Belcher Honored As New Minister

Rev. J.S. Belcher, 3rd from the left, his wife and family were honored as the new minister of Hays Chapel CME Church in Seaside recently. Shown above are from left to right, Rev. and Mrs. Charles Belcher of Oakland, son of Rev. Belcher; Dr. John Henry Rivers, keynote speaker; Mrs. J.S. Belcher, Mayor B.J. Dolan, Rev. Belcher, Mr. Kenneth Hamilton, and Mrs. Verna Stone. The welcoming reception was held at Del Manor Center. PHOTO BY JOHN PERKINS.

MPUSD Superintendent Reports

Dr. James Harrison, Superintendent of Monterey Peninsula Unified School District reported that the Association of Low Wealth Schools is working with the State Department of Education regarding possible legislation to implement the Serrano vs. Priest decision. The State Department has a support committee which is drafting his legislation and the Association has two members on the Committee.

Dr. Harrison said that the Association is also involved in legislation regarding Federal Funds (PL 874) which are so critical to the operation of the Monterey Peninsula Unified School District. He added that the legislation as now written, would require that PL 874 monies would be given to the State. The State in turn, would give the money to the District as part of the regular State funding or revenue limit.

Harrison reported that a 25 per cent bonus may be included in the legislation which would encourage district participation and to offset some of the operating costs.

Harrison concluded by reporting that PL 874 monies for 3B pupils (Federally connected students living off of federal property) may be eliminated from the allowance. He said this is a very critical matter because 54 per cent of the District's students are Federally connected.

7 WAYS TO KEEP WARMER, CHEAPER.

Because our costs for fuel have gone up, your fuel
costs are higher this winter than last, too. But even with increased
rates, you can still hold down your heating costs by decreasing
your energy usage. Here are some practical "here's how's"

1. Set your furnace thermostat to a
temperature of 68° or lower. Turn it down even
more when you leave home or go to bed.

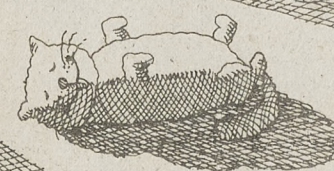

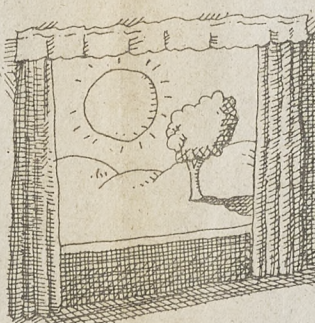

3. Drag out Aunt Lucy's
homemade sweater.
Remember the cable knit
you thought was really knit
out of cables? It can
actually help at lower
thermostat settings.

6. Indulge your taste
for "hotter" foods. You'll
be amazed how much warmer
you'll feel after a good,
hot bowl of chicken soup.
Or some such.

4. Clean or replace
those dirty filters that make the
furnace work harder than
necessary to heat your home.

2. Keep all exterior doors tightly closed.
This tip may sound simple, but you'd be amazed at how much
energy and money goes out the door with the heat.

5. Open your draperies on sunny days.
Let Mother Nature do the work for your
furnace. At night and on cloudy days you
can also stop up to 16% of the heat lost
through the windows by closing the
draperies over large glass areas.

7. When you're not using the fireplace,
close the damper. Why let your heat escape up a
flue that can't appreciate it?

PG and E

California Teachers' Salaries On The Rise

SACRAMENTO... The median salary of California school teachers rose to \$12,903 last year—7.5 percent more than the 1972-73 school year. A newly released report by the California State Department of Education on salaries of public elementary and secondary school teachers and principals also disclosed that the median salary was \$23,298 for high school principals and \$21,121 for elementary school principals, a 7 percent increase in each instance over the previous year.

The report, covering salaries during the 1973-74 school year, said one quarter of the teachers earned more than \$15,000. The lowest paid quarter, by contrast, received less than \$10,800. Wilson Riles, state superintendent of public instruction, pointed out.

Wide differences in pay between counties were observed, Riles said. He noted that teachers in Marin County received the highest pay in the state with a median salary of \$14,987. The lowest median salary was \$9,925 in Modoc County.

A median salary, Riles explained, is the statistical mid-point in a range of figures. Half the persons included received more and half less than the median salary for their group.

Among the state's 187,841 full-time teachers, 231 earned less than \$7,200 while 26,730 received \$16,200 or more.

The department's report does not directly compare salaries of male and female teachers. However, the predominantly female teaching staffs of elementary schools, as in past years, received lower salaries than the mostly male high school faculties, Riles said.

The median high school teacher's salary last year was

\$13,755, while that of the elementary teacher was \$12,421. Women made up 75 percent of the 113,733 elementary teachers in the state, but only 38 percent of the 74,108 high school teachers.

Statistics showing the numbers of teachers and various types of administrators by sex were reported for the first time this year Riles said.

Women continued to hold a

limited minority of the state's school administrative position, the report said. Women held 12 percent of the 6,127 principalships and 23 percent of the 1,748 vice principalships.

Women with administrative jobs were most often elementary vice principals, filling 27 percent of such positions in the state. They were least often high school principals, holding only 4 percent of those positions.

Although teacher salaries have risen continually in California over the past decade, the sharpest rises came in 1969-70 and 1973-74, Riles said.

Eleven years ago, the median teacher salary in the state was \$6,850, rising to \$7,124 in the next school year, 1963-64. Ten years later that figure had increased to \$12,903.

During the mid and late 1960s, the annual increase in the median teacher salary

rose from 4 percent to a high of 7.9 percent in 1969-70. This annual rise fell off to 4.5 percent in 1971-72, but climbed quickly to the 1973-74 figure of 7.5 percent.

Greater All-Out Effort Needed

President Ford startled millions of Americans recently when he remarked that results to date of Project Independence were "disappointing."

There is no question that the United States energy situation is deteriorating despite all of the actions which have been taken in the name of Project Independence -- the concerted effort to reduce our dependence on foreign petroleum.

- Domestic oil production is not increasing. It has declined from 1970 to the present. And between now and 1977 it will, at best, hold constant and probably drift somewhat lower.

- Natural gas supplies are still very short. Consumption continues to outpace discoveries, and curtailments may reach as much as 10 per cent of demand this winter.

- The nuclear industry continues to lag. Poor quality control is causing operational problems at existing plants; delays make the lead time nine to 10 years. Nuclear power today accounts for the same percentage of energy supplies as firewood.

- Coal production will be limited unless environmental standards are modified and new markets developed. Coal is our Nation's most abundant resource, but we cannot use all the coal we can produce.

On the positive side, it is possible to report that refineries are being built again. And despite our dislike for the higher prices following upon the Arab oil embargo, the fact remains that this has helped to cut down on spiraling demand.

Project Independence has two facets -- saving energy and increasing energy supplies.

For the short term, energy conservation holds out greater hope for reducing our dependence on foreign petroleum that does the potential for expansion of supply.

The problem is that the conservation ethic has not yet become a part of American life. This is why President Ford has so heavily emphasized the need for energy saving and has delivered the kind of pep talk exemplified by his address October 15 in Kansas City to the Future Farmers of America.

We all know the answer, and the Federal Energy Administration has been pushing it -- carpooling, using public transportation, reducing electric light wattage, lowering thermostats in winter and turning them higher in summer, and installing commercial and residential insulation.

In addition, FEA has begun a series of conferences on industrial conservation with the six largest energy-consuming industries in the country -- oil refiners, cement, aluminum, chemicals, steel and paper -- to develop a comprehensive conservation program.

FEA also is working with State governments to formulate and implement energy policy. Last September 25 FEA allocated \$10 million to the States and territories for fuel allocation activities and to implement high priority energy management programs, including conservation.

FEA also is pushing for passage of the Special Energy Act of 1974, which would authorize mandatory energy conservation measures and rationing, if it should become necessary. Another FEA-backed bill is the Appliance and Motor Vehicle Energy Labeling Act, which requires that major vehicles, as well as appliances, be labeled to show their energy usage and efficiency.

On the supply end of Project Independence, we are building the Alaskan Pipeline, which promises to produce 1.2 million barrels of oil a day by 1977 and 2 million by 1980.

We have accelerated the Outer Continental Shelf gas and oil exploration program by leasing two million acres on the OCS in 1974. That is twice the acreage leased

during 1973, with another 1.4 million recently offered to bidders. The Ford Administration plans to lease 10 million acres on the OCS in 1975 -- the equivalent of all acreage leased between enactment of the OCS Lands Act in 1953 and the start of accelerated leasing in 1974.

The Administration leased four oil shale tracts in Colorado and Utah during the last year to create an incentive for the commercial development of oil shale.

The Administration has leased 18 tracts in known geothermal resource areas this year for initial development and exploration purposes.

The Ford Administration is completing environmental impact and economic assessment studies to assist in active Federal leasing of coal resources in 1975.

The Ford Administration's fiscal 1975 energy research and development budget totals \$2.3 billion, compared with about half that amount in the preceding year. This budget embraces nuclear fission and fusion, coal, oil, gas, oil shale, solar and geothermal energy development, energy conservation, and environmental matters.

We are speeding up nuclear fission and fusion research.

We are engaged in a major expansion in coal R&D -- a five-fold increase from two years ago, including coal extraction and conversion into gas, liquids, or clean solids for final use.

We are demonstrating better secondary and tertiary oil recovery techniques. The Ford Administration wants to decontrol the price of oil

recovered by secondary means, such as flooding wells with water, in order to stimulate production.

a
BOOK
that can
CHANGE your
whole life

Is GOD real to you?
Can you trust HIM?
Is HE near to you?

The Bible tells us we can turn to God for help, for health, for protection. Yet some think these Bible promises are empty. They don't have to be. Today there is a book that is helping many people tune in to the truth of God's nearness. His power and fatherliness. That book is:

Science and Health
with Key to the Scriptures.

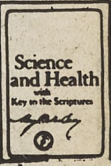

At a low point of poverty, hopeless illness and loneliness, its author, Mary Baker Eddy, saw that God can be trusted and loved. She found that God heals the sick when we love and understand Him. A deep student of the Bible, she discovered a Science based on living the Christianity Jesus taught. She won her freedom from poverty and disease and from her loneliness. Then she wrote down what she learned for the whole world.

By reading and studying this powerful book along with the Bible, men and women throughout the world have found that God can and will help them. These people have solved housing problems, gained opportunities for better education. They've won freedom from poverty, overcome racism. They've discovered what it really means to be the children of God.

You can borrow a copy of *Science and Health with Key to the Scriptures* from the free lending library at any Christian Science Reading Room, or you can purchase it in paperback.

SPECIAL FREE OFFER
If you'll take this ad to one of these Reading Rooms, you can have your own copy of *Science and Health* to read for thirty days. If at the end of that time you want to keep it, you just pay the nominal purchase price of \$1.95.

Or you can return it to the Reading Room with absolutely no obligation.

Summons of Marriage

Attorney(s) for PETITIONER: REGINALD DEVON WILHITE and Respondent: JUANITA YANG SOOK WILHITE. CASE NUMBER MDR 567 ORDER FOR PUBLICATION OF SUMMONS OR CITATION.

Upon reading and filing evidence consisting of a declaration as provided in Section 415.50 CCP by PETITIONER, and if satisfactorily appearing therefrom that the defendant, respondent, or citee JUANITA YANG SOOK WILHITE, cannot be served with reasonable diligence in any other manner specified in article 3, Chapter 4, Title 5 of the Code of Civil Procedure, and it also appearing from the verified complaint petition that a good cause of action exists in this action in favor of the plaintiff, petitioner, or citee therein, and against the defendant, respondent, or citee and that the said defendant, respondent, or citee is a necessary and proper party to the action or that the party to be served has or claims an interest in, real or personal property in this state that is subject to the jurisdiction of the Court or the relief demanded in the action consists wholly or in part in excluding such party from any interest in such property: NOW, on motion of PETITIONER,

Attorney(s) for the Plaintiff(s), Petitioner(s), or contestant(s), IT IS ORDERED that the service of said summons or citation in this action be made upon said defendant, respondent, or citee by The SEASIDE POST a newspaper of general circulation published at SEASIDE, MONTEREY, CALIFORNIA, hereby designated as the newspaper most likely to give notice to said defendant, that said publication be made at least once a week for four successive weeks.

It is further ordered that a copy of said summons or citation and of said complaint or petition in this action be forthwith deposited in the United States Post Office, post-paid, direct to said defendant, respondent, or citee if his address is ascertained before expiration of the time prescribed for the publication of this summons or citation and a declaration of this mailing or of the fact that the address was not ascertained be filed at the expiration of the time prescribed for the publication.

SHERIFF'S SALE

NOTICE OF SALE OF REAL

PROPERTY UNDER

EXECUTION

GEORGE T. McMAHAN, ET AL, Plaintiff, vs L. V. HALL, ET AL, Defendants.

Sheriff's File No. 65752
Action No. 17923

I, WILLIAM A. DAVENPORT, Sheriff of Monterey County, do hereby certify that by virtue of a Writ of Execution issued on the 20th day of September, 1974, out of the Municipal Court of California, Monterey-Carmel Judicial District, County of Monterey, upon a judgment in the above entitled action, showing a balance in the amount of \$1,445.05, entered on the 13th day of September, 1974, in favor of GEORGE T. McMAHAN dba McMAHAN FURNITURE CO. of Seaside, judgment creditor, and on the 25th day of September, 1974, I duly levied upon all the right, title and interest of L. V. HALL,

judgment debtor in said action, in the property hereinafter described as follows: Lots 69 and 71, in Block 18, as said lots and block are shown on that certain map entitled "Map No. 4 of Del Monte Heights, being a Resubdivision of Blocks 18, 19 and 20, Villa Subdivision of Lots 2 and 3 of the Noche Buena Rancho, Monterey County, California, platted by Lou G. Hare, Co. Surveyor, March 1909," filed for record April 5, 1909, in the office of the County Recorder of the County of Monterey, State of California, in Vol. 2 of Maps Cities and Towns, at Page 13.

PUBLIC NOTICE IS HEREBY GIVEN that on Thursday the 21st day of November, 1974, at 10:00 o'clock A.M., at the front entrance to the Sheriff's Office County Jail Bldg., 142 West Alisal Street, City of Salinas, County of Monterey, State of California, I will sell at PUBLIC AUCTION, for cash in lawful money of the United States, all the right, title and interest of said judgment debtor in the above described property, or so much thereof as may be necessary to satisfy said execution, with accrued interest and costs, etc., to the highest and best bidder.

WILLIAM A. DAVENPORT, SHERIFF

OF MONTEREY COUNTY
Dated: October 11, 1974.

publication dates: Oct. 30, Nov. 6 & 13th, 1974.

Civil Division

NAACP Political Actions Conference Set Criteria

Delegates to the West Coast Region, NAACP Political Action Conference in Fresno, this month set three principal criteria by which statewide candidates for public office should be measured by blacks and other minorities when they go to the polls to vote November 5th.

Virna M. Canson, Regional Director, said at the close of the Conference, "After careful consideration and much deliberation, our conferees resolved by unanimous vote that, 'Governatorial and other statewide candidates make as their first priority implementation of affirmative action for their staff and any committees or board or commissions for which they are responsible;'

"That minority business and enterprise will have parity status across the State with the recognition that minority unemployment is greater than the statistics indicate and that intensified effort be made to alleviate the critical plight of the underemployed and unemployed minorities, and finally,

"That all candidates for state offices go on record publicly as their positions on all programs related to restoring faith with young people who are dependent on special programs for financial

support in the pursuit of their education; that a specific plan for implementation of increased support be a part of this promise.

Mrs. Canson announced the organization's position on the ballot propositions: OPPOSE positions were taken on Propositions 5 and 9, while the delegates voted SUPPORT positions for Propositions 4, 10, 12, 15 and 16.

Delegates gave as their reason for vigorous opposition to Proposition 5, the devastating economic impact on the central cities of this issue.

Proposition 5 prohibits charter cities in California from requiring residence of those persons employed by the cities and counties. Mrs. Canson said, "This issue is the racially-tainted issue on this ballot. It compounds the problem of dwindling economic resources for the center cities where needs are greatest."

Delegates unanimously, and enthusiastically, adopted a Declaration of Intent at the close of the Conference:

"In order to increase the political effectiveness of the Black community, and to minimize the disparity of many of our political leaders; and in view of the diverse interests of many black organizations who recognize the common interests and problems of all blacks:

We, the members of the National Association for the Advancement of Colored People, representing many political philosophies, thoughts and interests, realizing the realities of politics hereby make the following pledge:

That we bind ourselves in a federation under the aegis of the NAACP Political Action Committee for the purposes of sharing, analyzing and educating ourselves and all members of the black community of all issues pertinent thereto, and for the purpose of presenting a united front on issues and candidates; to serve notice on candidates and National, State, County and City officials that there is a common political bond among us which shall not be violated.

To make public office holders more responsible to the black electorate.

To seek out quality persons to run for public office and to use whatever political muscle possible to gain seats on every Board and Commission in the state of California."

Grandvel Jackson, President of the Northern Area Conference, NAACP, acting for the Region, constituted the Conference Resolution Committee into an Ad Hoc Steering Committee to work with the Regional Director to implement the resolutions.

Acoustic Gear Workshop Set

MOSS LANDING -- One of the most useful innovations resulting from the Second World War was the application of SONAR (Sound and Navigation Ranging) equipment to commercial fishing. Acoustic equipment has revolutionized the industry by providing the fisherman with a reliable means for locating his vessel, his prey and his gear in the ocean. A fisherman equipped with SONAR, opposed to one who does not employ this tool, is equivalent to a sighted versus a blind human being.

Despite the usefulness of SONAR, many fishermen lack an appreciation of what it can do for them, what gear suits their needs, and the best methods for using and maintaining SONARS and fathometers.

To assist fishermen in improving the efficiency of their operations, the Sea Grant Advisory Services program at Moss Landing Marine Laboratories and the University of California Cooperative Extension will host a workshop on acoustic equipment for commercial fisherman from 9:30 a.m. to 4:00 p.m. on Saturday, November 9. The workshop will take place at the auditorium of the Watsonville offices of the University of California Agricultural Extension, located at 1432 Freedom Boulevard (behind the County Center).

Subjects to be discussed include: basic underwater acoustics, fathometers and SONARS, classification of echoes, and use and maintenance of equipment. In addition to the workshop sessions, four major manufacturers of acoustic apparatus plan to display their products.

Although the workshop is designed for commercial fishermen, all interested members of the public are cordially invited to attend.

President Ford's favorite shutter-bug, now White House photographer, David Kennerly explains his success modestly. "I just shoot what goes on," he says. His Pulitzer prize came for photographic coverage of the Vietnam mess.
